

Below is a list of health testing clinics currently scheduled within Canada for 2008 and 2009. Please check back often for updates. If you are aware of an upcoming health clinic or specialist testing information not listed, please contact us at admin@cavalierhealth.ca so that it may be included.

To arrange for MRI scanning or MVD testing by appointment, the two following facilities can be recommended in Ontario:

<http://www.vetemergency.ca/> (Neurologist: Dr. Duque, Cardiologist: Dr. Minors)

<http://www.uoguelph.ca/campus/map/smallanimal/> (Neurologist: Dr. Wolfe, Cardiologist: Dr. O'Grady)

Always share your test results with your current vet and breeder, if possible.

A list of veterinary specialists offering ongoing testing can be found at www.canuckdogs.com or by contacting your local vet for a referral.
